CAREER OBJECTIVE

To secure a position in a dynamic and challenging IT environment where I can continuously enhance my technical skills, learn new technologies, and contribute meaningfully to the development of innovative and efficient solutions

PROJECTS

ShopSync Management System

- Technology Used: C# (.NET Framework 4.7.2), Database: MS-Access
- Description: A retail management software that automates inventory tracking, sales processing, customer management, and billing for enhanced business efficiency.
- Feature Enhancements: Improved inventory tracking, optimized billing system, and enhanced user interface for better usability and efficiency.

News Website (ReactJS)

- Technology Used: React.js, Bootstrap, News API
- Description: A dynamic news website built with React.js, fetching real-time news updates via News API. Designed for a seamless user experience with interactive UI components.
- Feature Enhancements: Improved UI/UX with React components, optimized API request handling, and added filtering/search functionality for better news accessibility.
